### 4 FIRST-AID MEASURES

**General Advice:** Show this SDS to the doctor in attendance. Immediate medical attention is required. If exposed or concerned, get medical advice/attention.

**Inhalation:** If breathing has stopped, give artificial respiration. Get immediate medical attention. Remove to fresh air. Do not use the mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If breathing is difficult, trained personnel should give oxygen. If exposed or concerned, get medical advice/attention. Get immediate medical attention if symptoms occur.

**Eye Contact:** Immediately rinse with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Keep eye wide open while rinsing. Do not rub affected area. Get medical attention if irritation develops and persists.

**Skin Contact:** Immediately wash off with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation develops and persists.

**Ingestion:** Do not induce vomiting. Clean mouth with water and drink plenty of water afterwards. Never give anything by mouth to an unconscious person. Immediately call a physician or poison control center.

**Self-protection of the first aider:** Remove all sources of ignition. Ensure that medical personnel are aware of the material(s) involved. Take precautions to protect oneself and prevent spread of contamination. Do not breathe vapor or mist. Do not use the mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Use personal protective equipment as required. See Section 8 for more information. Avoid contact with skin, eyes or clothing.

**Most Important Symptoms and Effects:** Coughing and/or wheezing. Difficulty in breathing. Burning sensation.

**Note to Physician:** Treat symptomatically.

### 5 FIRE-FIGHTING MEASURES

**Suitable Extinguishing Media:** Dry chemical. Carbon dioxide (CO₂). Water spray. Alcohol-resistant foam.

**Unsuitable Extinguishing Media:** CAUTION: Use of water spray when fighting fire may be inefficient.

**Specific Hazards Arising from this Mixture:** Keep product and empty containers away from heat and sources of ignition. In the event of fire, cool tanks with water spray.

**Hazardous Combustion Products:** Carbon oxides.

**Sensitivity to Mechanical Impact:** None.

**Sensitivity to Static Discharge:** Yes.

**Protective Equipment for Firefighters:** Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

### 6 ACCIDENTAL RELEASE MEASURES
